## WILDCAT

2 parts mezcal

2 parts gin

1 part Heering

1 part Kahlúa

dash of Tabasco sauce

(black food colouring, not pictured)

Shake with ice and strain into a shot glass.

## Late arrivals...

### OBSIDIAN

6 to 8 parts rowanberry vodka

1 part Green Chartreuse

2 parts Amaretto

black food colouring

Shake with ice and strain into a cocktail glass.

**Rowanberry vodka:** collect rowanberries (*Sorbus aucuparia*) late at fall when they're ripe, preferably bitten by first night frost. Put some berries into a glass jar, 1/5 of jar volume is fine. Fill the jar with vodka, let them soak for couple of days. Rule of thumb: if you see some colour in the vodka when gazed against the light, the taste is right – too sour to be enjoyed as it is, but great for making cocktails.

### SANDMAN

5 parts sour apple liqueur

3 parts Licor 43

1 or 2 parts the smoothest dark rum you have

2 parts light rum

Shake with ice and strain into a cocktail glass.
